

**2000 Advanced Placement Program®
Free-Response Questions**

The materials included in these files are intended for use by AP® teachers for course and exam preparation in the classroom; permission for any other use must be sought from the Advanced Placement Program. Teachers may reproduce them, in whole or in part, in limited quantities, for face-to-face teaching purposes but may not mass distribute the materials, electronically or otherwise. These materials and any copies made of them may not be resold, and the copyright notices must be retained as they appear here. This permission does not apply to any third-party copyrights contained herein.

These materials were produced by Educational Testing Service (ETS), which develops and administers the examinations of the Advanced Placement Program for the College Board. The College Board and Educational Testing Service (ETS) are dedicated to the principle of equal opportunity, and their programs, services, and employment policies are guided by that principle.

The College Board is a national nonprofit membership association dedicated to preparing, inspiring, and connecting students to college and opportunity. Founded in 1900, the association is composed of more than 3,800 schools, colleges, universities, and other educational organizations. Each year, the College Board serves over three million students and their parents, 22,000 high schools, and 5,000 colleges, through major programs and services in college admission, guidance, assessment, financial aid, enrollment, and teaching and learning. Among its best-known programs are the SAT®, the PSAT/NMSQT®, the Advanced Placement Program® (AP®), and Pacesetter®. The College Board is committed to the principles of equity and excellence, and that commitment is embodied in all of its programs, services, activities, and concerns.

2000 AP® MACROECONOMICS FREE-RESPONSE QUESTIONS

MACROECONOMICS

SECTION II

Planning Time—10 minutes

Writing Time—50 minutes

Directions: You have fifty minutes to answer all three of the following questions. It is suggested that you spend approximately half your time on the first question and divide the remaining time equally between the next two questions. In answering the questions, you should emphasize the line of reasoning that generated your results; it is not enough to list the results of your analysis. Include correctly labeled diagrams, if useful or required, in explaining your answers. A correctly labeled diagram must have all axes and curves clearly labeled and must show directional changes.

1. Suppose that the United States economy is in a deep recession.
 - (a) Using a correctly labeled aggregate demand and aggregate supply graph, show the equilibrium price level and real gross domestic product.
 - (b) There is a debate in Congress as to whether to decrease personal income taxes by a given amount or to increase government purchases by this amount. Which of these two fiscal policies will have a larger impact on real gross domestic product? Explain.
 - (c) Explain how a decrease in personal income taxes will affect each of the following in the short run.
 - (i) Consumption
 - (ii) Real gross domestic product and the price level
 - (iii) Imports
 - (iv) Exports
 - (d) Explain the mechanism by which an increase in net investment will cause each of the following to change.
 - (i) Aggregate demand
 - (ii) Long-run aggregate supply

2000 AP® MACROECONOMICS FREE-RESPONSE QUESTIONS

2. Assume that the United States and France are the only two countries in the world and that exchange rates between the two countries are flexible.

- (a) Assume that there is an increase in the United States demand for French goods. Explain how this increase in demand will affect each of the following.
- (i) The supply of dollars
 - (ii) The international value of the dollar
- (b) Assume that there is an increase in real interest rates in the United States, but not in France. Explain how this increase in interest rates will affect each of the following.
- (i) The international value of the dollar in the foreign exchange market
 - (ii) The quantity of dollars supplied in the foreign exchange market
3. Assume an economy with no international sector.
- (a) Using a correctly labeled money-market graph, show how a decrease in the money supply will affect interest rates.
- (b) Explain how the change in the interest rate you identified in part (a) will directly affect each of the three components of aggregate demand for this closed economy.
- (c) Using a correctly labeled aggregate demand and aggregate supply graph, show how the change in the interest rate you identified in part (a) will affect each of the following in the short run.
- (i) Output
 - (ii) Price level
