

AP[®] Macroeconomics 2012 Scoring Guidelines

The College Board

The College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is made up of more than 5,900 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, the College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success — including the SAT[®] and the Advanced Placement Program[®]. The organization also serves the education community through research and advocacy on behalf of students, educators, and schools. The College Board is committed to the principles of excellence and equity, and that commitment is embodied in all of its programs, services, activities, and concerns.

AP[®] MACROECONOMICS 2012 SCORING GUIDELINES

Question 1

12 Points (2 + 6 + 4)

(a) 2 points:

- One point is earned for a correctly labeled graph of the production possibilities curve (PPC).
- One point is earned for showing point A inside the PPC.

(b) 6 points:

- One point is earned for identifying the buying of bonds as the correct open-market operation to use.
- One point is earned for drawing a correctly labeled graph of the money market.
- One point is earned for showing a rightward shift of the money supply curve, resulting in a lower interest rate.
- One point is earned for stating that the real interest rate will fall.
- One point is earned for explaining that with the price level remaining constant, when the nominal interest rate falls, the real interest rate also falls.
- One point is earned for stating that the real GDP will increase in the short run and explaining that investment or consumption increases, causing aggregate demand to increase.

2012 SCORING GUIDELINES**

Question 1 (continued)

(c) 4 points:

- One point is earned for stating that the current account deficit will increase.
- One point is earned for explaining that the increase in real GDP increases income, which causes imports to increase and net exports to decrease.
- One point is earned for stating that the international value of the bera will decrease.
- One point is earned for explaining that the decline in the international value of the bera is due to an increase in the supply of the bera.

2012 SCORING GUIDELINES**

Question 2

5 points (1 + 3 + 1)

(a) 1 point:

- One point is earned for calculating the correct reserve requirement of 10 percent (\$10,000/\$100,000).

(b) 3 points:

- One point is earned for stating that total bank reserves will decrease by \$5,000.
- One point is earned for stating that the \$5,000 withdrawal has no effect on the M1 measure of the money supply because it only changes the composition of M1 between cash and demand deposits.
- One point is earned for stating that the new value of the excess reserves is \$500.

(c) 1 point:

- One point is earned for stating that the bank can borrow from the Federal Reserve or from another bank.

2012 SCORING GUIDELINES**

Question 3

6 points (2 + 1 + 1 + 2)

- (a) 2 points:
- One point is earned for drawing a correctly labeled graph and showing the AD and SRAS curves and PL_1 .
 - One point is earned for showing a vertical LRAS curve at the output Y_1 through the intersection of the SRAS and AD curves.
- (b) 1 point:
- One point is earned for showing a rightward shift of the aggregate demand curve and showing Y_2 and PL_2 .
- (c) 1 point:
- One point is earned for stating that real wages will fall because the price level has increased and the nominal wages are fixed in the short run.
- (d) 2 points:
- One point is earned for stating that the investment component of AD will change.
 - One point is earned for stating that the long-run aggregate supply curve will shift to the right because the capital stock has increased.
