

12 A music group has 30 members.

7 members play a flute (F) and play a clarinet (C).

12 members play a flute.

1 member does not play a flute and does not play a clarinet.

(a) Use this information to complete the Venn diagram.

[2]

(b) Find $n(C)$.

..... [1]

13 By writing each number in the calculation correct to 1 significant figure, find an estimate for the value of

$$\frac{62.5}{9.7 \times 0.52} .$$
