

5.1 Business finance

Name: _____ Class: _____ Date: _____ **Total: 29 marks**

KEY WORDS cash 现金 • working capital 营运资本 • profit 利润
• capital expenditure 资本性支出 • revenue expenditure 收益性支出

Objective

Build the skills to answer exam questions on **business finance** 企业资金 — **capital and revenue expenditure** 资本性支出和收益性支出, **working capital** 营运资本, and the key idea that **cash is not the same as profit** 现金不等于利润.

You must be able to:

- distinguish capital from revenue expenditure
- calculate **working capital** and explain why it matters
- explain why a profitable business can still run out of cash

1 Worked examples

■ Working capital, and cash versus profit

a firm can be profitable but still run out of cash

Profit (on paper) and cash (in the bank) are different

working capital = current assets — current liabilities

- **Worked:** current assets \$80,000, current liabilities \$50,000 → working capital = \$30,000.
- **Capital expenditure** = fixed assets (machines, buildings); **revenue expenditure** = day-to-day (wages, rent).
- A profitable firm can run out of cash if customers have not yet paid — **profit ≠ cash**.

Answer shapes: AO1 + AO2 + AO3 (reasoning chain) + AO4 (a supported judgement *in context*).

2 Practice

2.1 Define the term *working capital*. [2]

2.2 A firm has current assets of \$60,000 and current liabilities of \$45,000. Calculate its working capital. [2]

2.3 State the difference between *capital* and *revenue* expenditure. [2]

3 Exam-style questions

3.1 Explain one reason why a profitable business might still run short of cash. [3]

3.2 Analyse two reasons why working capital is important to a business. [8]

3.3 'A business should always hold as much cash as possible.' Evaluate this view. [12]
