# Vocabulary Test 词汇测验

A-Level Computer Science · Week 6

Topics 3–4 · Hardware, Processor Fundamentals

---

*Sections A and C are marked on exact spelling; Section B accepts any listed Chinese form.*

| Question | Answer                     | Marks |
|----------|----------------------------|-------|
| 1        | accelerometer              | 1     |
| 2        | gyroscope                  | 1     |
| 3        | volatile                   | 1     |
| 4        | non-volatile               | 1     |
| 5        | SRAM                       | 1     |
| 6        | flip-flop                  | 1     |
| 7        | DRAM                       | 1     |
| 8        | refreshed                  | 1     |
| 9        | monitoring                 | 1     |
| 10       | sensor                     | 1     |
| 11       | thermistor                 | 1     |
| 12       | actuator                   | 1     |
| 13       | logic gate                 | 1     |
| 14       | Boolean                    | 1     |
| 15       | truth table                | 1     |
| 16       | Von Neumann architecture   | 1     |
| 17       | stored program             | 1     |
| 18       | arithmetic and logic unit  | 1     |
| 19       | 只读存储器                      | 1     |
| 20       | 高速缓存                       | 1     |
| 21       | 控制系统                       | 1     |
| 22       | 反馈                         | 1     |
| 23       | 逻辑电路                       | 1     |
| 24       | 控制单元                       | 1     |
| 25       | RAM / random access memory | 1     |
