# Vocabulary Test 词汇测验

A-Level Computer Science · Week 14

Topics 8–9 · Databases, Algorithm Design and Problem-solving

---

*Sections A and C are marked on exact spelling; Section B accepts any listed Chinese form.*

| Question | Answer                 | Marks |
|----------|------------------------|-------|
| 1        | query                  | 1     |
| 2        | join                   | 1     |
| 3        | aggregate functions    | 1     |
| 4        | attribute              | 1     |
| 5        | secondary key          | 1     |
| 6        | indexing               | 1     |
| 7        | data modelling         | 1     |
| 8        | logical schema         | 1     |
| 9        | data integrity         | 1     |
| 10       | query processor        | 1     |
| 11       | developer interface    | 1     |
| 12       | computational thinking | 1     |
| 13       | decomposition          | 1     |
| 14       | algorithm              | 1     |
| 15       | unambiguous            | 1     |
| 16       | identifier table       | 1     |
| 17       | variable               | 1     |
| 18       | data type              | 1     |
| 19       | 元组                     | 1     |
| 20       | 数据管理                   | 1     |
| 21       | 数据安全                   | 1     |
| 22       | 抽象                     | 1     |
| 23       | 确定性                    | 1     |
| 24       | 伪代码                    | 1     |
