Name: _____ Class: _____ Date: _____

Total: 27 marks

KEY WORDS fiscal policy 财政政策 • budget 预算 • regressive 累退税 • budget deficit 预算赤字
• progressive tax 累进税

Objective

Build the skills to answer exam questions on **fiscal policy** 财政政策 — the **budget** 预算 (deficit/surplus), types of tax (**direct/indirect, progressive/proportional/regressive** 直接/间接、累进/比例/累退), **expansionary and contractionary** 扩张性与紧缩性 policy, and **crowding out** 挤出效应.

You must be able to:

- define fiscal policy, budget deficit and surplus
- classify taxes and explain expansionary vs contractionary policy
- analyse the effectiveness of fiscal policy (including crowding out)

1 Worked examples

■ Using government spending and tax

expansionary: $AD \rightarrow \cdot Y \uparrow, P \uparrow$

Contractionary policy does the reverse

- **Budget deficit** 预算赤字: spending > tax (must borrow → **national debt** 国

债). **Surplus**: tax > spending.

- **Progressive tax** 累进税: rate rises with income; **regressive** 累退税: rate falls with income.

The main tax types a government uses on the revenue side of fiscal policy

- **Expansionary** 扩张性 (more G / lower T) → AD right (fights recession); **contractionary** → AD left (fights inflation).
- **Crowding out** 挤出效应: heavy government borrowing raises interest rates → less private investment.

Answer shapes: an **Explain** [up to 8] answer may use an AD–AS diagram (AO3); **Discuss** [12] adds a judgement (AO4).

2 Practice
