

T1 counterargument	T1 relevance	T1 evidence
T1 register	T1 detail	T2 conventions
T2 parallelism	T2 agreement	T2 modifier

T1 Information or observations used to support or challenge a claim.	T1 How closely information relates to the question or purpose being considered.	T1 An argument that challenges a claim or position being considered.
T2 Established practices for using language, including grammar, punctuation and appropriate style.	T1 A small fact or feature that helps describe or explain something.	T1 The style of language chosen for a particular audience, purpose or situation.
T2 A word, phrase or clause that adds information about another part of a sentence.	T2 Meaning pending review.	T2 Meaning pending review.

T3 complex conjugate	T3 composition	T3 independent
T4 inference	T4 viewpoint	T4 evidence
T4 detail	T4 tone	T5 controlled comparison

T3 Describing quantities, events or choices that do not depend on one another in the relationship being considered.	T3 Combining functions by applying one function to the output of another.	T3 A complex number with the same real part and the opposite imaginary part as another complex number.
T4 Information or observations used to support or challenge a claim.	T4 Meaning pending review.	T4 A conclusion drawn from evidence or reasoning rather than directly observed.
T5 Meaning pending review.	T4 The attitude conveyed by a speaker's or writer's choice of words and expression.	T4 A small fact or feature that helps describe or explain something.

T5 engineering design	T5 evidence	T5 proposal
T6 counterargument	T6 perspective	T6 evidence
T6 argument	T7 complex conjugate	T7 conjugate

T5 A suggested plan presented for consideration or approval.	T5 Information or observations used to support or challenge a claim.	T5 The process of developing and improving a solution to meet a need within specified constraints.
T6 Information or observations used to support or challenge a claim.	T6 A particular viewpoint from which an issue or experience is understood.	T6 An argument that challenges a claim or position being considered.
T7 Meaning pending review.	T7 A complex number with the same real part and the opposite imaginary part as another complex number.	T6 A line of reasoning that uses claims and evidence to support a conclusion.

T8 displacement vector	T8 dot product	T8 matrix
T8 rate	T9 vertex form	T9 parabola
T9 rate	T10 candidate root	T10 parabola

T8 Meaning pending review.	T8 Meaning pending review.	T8 Meaning pending review.
T9 The curve formed by points equally distant from a fixed point and a fixed straight line.	T9 Meaning pending review.	T8 A quantity measured or calculated per unit of another quantity, often per unit time.
T10 The curve formed by points equally distant from a fixed point and a fixed straight line.	T10 Meaning pending review.	T9 A quantity measured or calculated per unit of another quantity, often per unit time.

T11 transformation	T11 composition	T11 one-to-one
T12 arithmetic sequence	T12 geometric sequence	T12 logarithm
T12 argument	T13 included angle	T13 cosine rule

T11 Describing a function in which different inputs always have different outputs.	T11 Combining functions by applying one function to the output of another.	T11 A change in form, state, nature or organisation.
T12 The exponent to which a specified base must be raised to produce a given positive number.	T12 A sequence in which each term is obtained by multiplying the previous term by a fixed common ratio.	T12 A sequence whose consecutive terms differ by a constant amount.
T13 The rule relating a triangle's sides and an angle: one side squared equals the sum of the other two sides squared minus twice their product times the cosine of the included angle.	T13 The angle formed between two specified sides or vectors meeting at a common point.	T12 A line of reasoning that uses claims and evidence to support a conclusion.

T13 amplitude	T14 perpendicular bisector	T14 rigid motions
T14 translation	T14 similarity	T14 congruence
T14 evidence	T14 argument	T14 transformation

T14 Meaning pending review.	T14 A line that crosses a line segment at its midpoint and at a right angle.	T13 The maximum displacement from an equilibrium position.
T14 The relationship between shapes that have exactly the same size and shape.	T14 A feature or quality that two things share.	T14 Expressing the meaning of a message or text in another language.
T14 A change in form, state, nature or organisation.	T14 A line of reasoning that uses claims and evidence to support a conclusion.	T14 Information or observations used to support or challenge a claim.

T15 hyperbola	T15 semiaxes	T15 parabola
T15 ellipse	T15 secant	T16 frequency
T16 residual	T16 evidence	T16 median

T15 The curve formed by points equally distant from a fixed point and a fixed straight line.	T15 Meaning pending review.	T15 A curve whose points have a constant absolute difference between their distances from two fixed points.
T16 The number of times a value, category or event occurs in a set of observations.	T15 A straight line passing through two distinct points on a curve.	T15 Meaning pending review.
T16 The middle value when data are arranged in order, or the mean of the two middle values for an even number of observations.	T16 Information or observations used to support or challenge a claim.	T16 An observed value minus the value predicted by a model.

T16 conventions	T17 conditional probability	T17 margin of error
T17 expected value	T17 inference	T17 evidence
T18 evidence	T18 rate	T18 residual

T17 Meaning pending review.	T17 The probability of an event given that another event has occurred.	T16 Established practices for using language, including grammar, punctuation and appropriate style.
T17 Information or observations used to support or challenge a claim.	T17 A conclusion drawn from evidence or reasoning rather than directly observed.	T17 The probability-weighted mean of the possible values of a random variable.
T18 An observed value minus the value predicted by a model.	T18 A quantity measured or calculated per unit of another quantity, often per unit time.	T18 Information or observations used to support or challenge a claim.

T19 counterargument	T19 counterclaim	T19 frequency
T19 relevance	T19 evidence	T19 argument
T19 detail	T20 transition	T20 antecedent

T19 The number of times a value, category or event occurs in a set of observations.	T19 Meaning pending review.	T19 An argument that challenges a claim or position being considered.
T19 A line of reasoning that uses claims and evidence to support a conclusion.	T19 Information or observations used to support or challenge a claim.	T19 How closely information relates to the question or purpose being considered.
T20 Meaning pending review.	T20 A word or phrase that connects ideas and shows their relationship.	T19 A small fact or feature that helps describe or explain something.

T20 evidence	T20 cohesion	T20 argument
T20 location	T21 formal register	T21 redundancy
T21 concision	T21 evidence	T21 register

T20 A line of reasoning that uses claims and evidence to support a conclusion.	T20 The links between parts of a text that help its ideas connect, such as reference words, conjunctions and repeated vocabulary.	T20 Information or observations used to support or challenge a claim.
T21 Unnecessary repetition or wording that does not add useful meaning.	T21 Meaning pending review.	T20 The place or position where something is situated.
T21 The style of language chosen for a particular audience, purpose or situation.	T21 Information or observations used to support or challenge a claim.	T21 Meaning pending review.

T21 diction	T22 independent clause	T22 conventions
T22 finite verb	T22 modifier	T22 colon
T23 inference	T23 evidence	T23 detail

T22 Established practices for using language, including grammar, punctuation and appropriate style.	T22 Meaning pending review.	T21 A writer's or speaker's choice of words.
T22 The punctuation mark : used to introduce an explanation, list or related statement; in code its role depends on the language.	T22 A word, phrase or clause that adds information about another part of a sentence.	T22 A verb form that shows tense or functions as the verb of an independent clause.
T23 A small fact or feature that helps describe or explain something.	T23 Information or observations used to support or challenge a claim.	T23 A conclusion drawn from evidence or reasoning rather than directly observed.

T24 point of view	T24 connotation	T24 evidence
T25 integration	T25 relevance	T25 evidence
T25 argument	T26 controlled comparison	T26 engineering design

T24 Information or observations used to support or challenge a claim.	T24 Meaning pending review.	T24 Meaning pending review.
T25 Information or observations used to support or challenge a claim.	T25 How closely information relates to the question or purpose being considered.	T25 Combining separate ideas, information or elements into a connected whole.
T26 The process of developing and improving a solution to meet a need within specified constraints.	T26 Meaning pending review.	T25 A line of reasoning that uses claims and evidence to support a conclusion.

T26 constraint	T26 proposal	T27 discriminating evidence
T27 discriminating test	T27 engineering design	T27 model assumption
T27 inference	T27 evidence	T27 proposal

T27 A result the competing models predict differently.	T26 A suggested plan presented for consideration or approval.	T26 A condition or limit that a valid solution must satisfy.
T27 Meaning pending review.	T27 The process of developing and improving a solution to meet a need within specified constraints.	T27 Meaning pending review.
T27 A suggested plan presented for consideration or approval.	T27 Information or observations used to support or challenge a claim.	T27 A conclusion drawn from evidence or reasoning rather than directly observed.

T28 rate of change	T28 interpolation	T28 extrapolation
T28 evidence	T28 rate	T28 proposal

T28 Estimating a value outside the range of observed data by extending a pattern or model.	T28 Meaning pending review.	T28 The change in one quantity divided by the corresponding change in another.
T28 A suggested plan presented for consideration or approval.	T28 A quantity measured or calculated per unit of another quantity, often per unit time.	T28 Information or observations used to support or challenge a claim.
