

Solutions

Each answer shows the steps, then the **result**.

2.1 B

- adding value to imply 3-D turns a shape into a form

2.2

- geometric = regular, mathematical shapes; organic = irregular, natural, free-flowing shapes

2.3

- the empty space around and between the positive objects

3.1

- Look for: accurate object outlines (1); every background/gap filled as one clear negative pattern (2)

3.2

- Look for: consistent single light source (1); highlight, mid-tone, core shadow, and cast shadow present (2)
