

Solutions

Each answer shows the steps, then the **result**.

2.1 B

- receding lines to a point = linear perspective

2.2

- any two of: make it smaller, place it higher, overlap it behind others, make it paler/less detailed

2.3

- the point on the horizon where parallel receding lines appear to meet

3.1

- Look for: a clear horizon and single vanishing point (1); parallel edges converge accurately, sizes diminish with distance (2)

3.2

- Look for: two named, appropriate depth cues (1); thumbnail shows three clear depth planes (2)
