

## Solutions

---

Each answer shows the steps, then the **result**.

### 2.1 B

- rethinking/changing a work to improve it = revision

### 2.2

- practice = repeating to build skill; experimentation = trying new materials/approaches

### 2.3

- it shows learning/inquiry and can be documented as evidence

### 3.1

- Look for: a genuinely new technique attempted (2); an honest note of results (1)

### 3.2

- Look for: a specific critique point (1); a revision that clearly addresses it (2)
