
Vocabulary Test 词汇测验

AP Calculus BC · Week 4

Topics 2–4 · Differentiation: Definition and Fundamental Properties, Differentiation:
Composite, Implicit, and Inverse Functions, Contextual Applications of Differentiation

Sections A and C are marked on exact spelling; Section B accepts any listed Chinese form.

Question	Answer	Marks
1	differentiable	1
2	corner	1
3	vertical tangent	1
4	Constant multiple	1
5	polynomial	1
6	product rule	1
7	identities	1
8	second derivative	1
9	chain rule	1
10	Implicit differentiation	1
11	inverse function	1
12	reciprocal	1
13	concavity	1
14	position	1
15	acceleration	1
16	at rest	1
17	幂法则	1
18	商法则	1
19	复合函数	1
20	反三角函数	1
21	速度	1
22	速率	1
