

Solutions

Each answer shows the steps, then the **result**.

2.1 B

- a **weighted line** varies thickness with pressure

2.2

- a line that fades out and reappears; the eye completes the missing edge / the drawing looks less cut-out

2.3

- horizontal = calm; vertical = firm/strong; diagonal = active/movement

3.1

- even vs weighted clearly differ; weight thickens on shadow/weight-bearing edges; at least two edges fade and return; lines look drawn from the arm

3.2

- four distinct directions/qualities; each labelled with a feeling; labels fit the lines, e.g. jagged diagonal = tense
