

Solutions

Each answer shows the steps, then the **result**.

2.1 B

- about 7.5 heads

2.2

- at the halfway line of the skull; beginners place them too high, near the top

2.3

- the gesture and big masses (ribcage, pelvis, skull)

3.1

- figure ~7.5 heads with hip at halfway; masses established first; head eye-line correct; features placed on the map, not floating

3.2

- a simple mitten/wedge base shape; divided into believable parts
