

Solutions

Each answer shows the steps, then the **result**.

2.1

- develops over the narrative and makes choices that directly or indirectly affect the climax and/or resolution

2.2

- external, such as health or wealth, and internal, psychological or emotional; each can lead to the other

2.3

(a)

- they remain unchanged or are largely unaffected by the events

(b)

- they measure the events by showing what those events did not do to someone, which gives the changes in others a scale

3.1 B

- the CED says “and vice versa”

3.2 A

- climax and/or resolution

3.3

(a)

- an external change and an internal one

(b)

- the external loss produced the internal change, which is the CED’s stated direction and can also run the other way
