

Exercise walk-through

9.13

Globalization

AP European History

Technology and Globalization

- Medical theories and technologies extended life but posed social and moral questions that **eluded consensus** .
- Increased imports of US technology and popular culture after the war generated **both enthusiasm and criticism** .
- New communication and transportation technologies multiplied connections across space and time, transforming daily life.
- **Green parties** in Western and Central Europe challenged consumerism and urged **sustainable development** .

Exercises 2.1·2.2

2.1 State the reception of imported American technology and culture. [2]

2.2 State what new communication and transportation multiplied and its effects. [2]

Exercises 2.1·2.2

2.1 State the reception of imported American technology and culture. [2]

2.1

- it generated both enthusiasm and criticism; the CED refuses to make the reception one thing

2.2 State what new communication and transportation multiplied and its effects. [2]

2.2

- connections across space and time; transforming daily life and contributing to the proliferation of ideas and to globalisation

Exercise 2.3 (a)

2.3 Green parties took three positions.

(a) Name them in order.

[3]

Exercise 2.3 (a)

- the CED dates the third position

Exercise 3.3 (a)

3.3 A broadcast is welcomed by one listener and resented by another.

(a) State what this illustrates.

[1]

Exercise 3.3 (a)

3.3 A broadcast is welcomed by one listener and resented by another.

(a) State what this illustrates.

[1]

(a)

- that the same import produced opposite reactions

Exercise 3.3 (b)

3.3 A broadcast is welcomed by one listener and resented by another.

(b) Explain what a history keeping only one reaction loses.

[2]

Exercise 3.3 (b)

3.3 A broadcast is welcomed by one listener and resented by another.

(b) Explain what a history keeping only one reaction loses. [2]

(b)

- it loses the disagreement that made the period contested, and reports as settled what was argued about
