AP European History

1. **models of political sovereignty; an increased but not unchallenged emphasis on reason; the expanding commercial network**

   Mechanisation belongs to unit 6.

2. **an asset that can be taken**

   So maritime competition is a consequence of 3.4's network.

3. **world wars**

   Fought both in Europe and in the colonies.

4. **Enlightenment ideas; long-term social and political causes; short-term fiscal and economic crises**

   The short-term crisis **exacerbated** the others; it is not the whole cause.

5. **inspired**

   They travelled to a place their authors had not intended them for.

6. **a façade of representative institutions; enduring domestic reforms; curtailed rights**

   An answer giving only the reforms has taken half the sentence.

7. **restoring the balance of power; containing revolutionary or nationalistic upheaval**

   Two aims in one sentence.

8. **the exclusive reliance on reason**

   Reason as the *only* faculty, not reason itself.

9. **it now has a rival claimant in the nation**

   Vienna named it a danger, which concedes its existence.

10. **True**

    5.8's Romanticism and religious revival are the reaction, in the same unit.
