AP European History

1. **spread from Great Britain to the continent**

   And on the continent the state played a greater role.

2. **worked together with favourable political and social climates**

   Coal without the institutions that turn it into policy is just coal.

3. **most, not all**

   6.2's lagging regions are the remainder.

4. **knows itself as a class**

   The operative word in the CED's sentence.

5. **not perfectible**

   The same kind of claim the Enlightenment made, opposite conclusion.

6. **economic hardship; discontent with the political status quo**

   One economic, one political.

7. **male**

   And *some* argued such rights should be extended to women.

8. **resulted**

   6.7's ideas are upstream of 6.8's organisations.

9. **reforming prisons; establishing modern police forces; modernising infrastructure; regulating public health**

   Building, regulating, reforming, and creating a new institution.

10. **True**

    Class, family and migration are not side-effects of economics here.
