

6.2 Cities Across the World

Name: _____ Class: _____ Date: _____

Total: 10 marks

KEY WORDS megacity 特大城市 • world cities 世界城市 • site 地点

Objective

Build the skills to answer exam questions on **world cities** 世界城市 and megacities.

You must be able to:

- define a **megacity** 特大城市 (over 10 million)
- define a **world (global) city** 世界城市
- explain why world cities are command centres
- distinguish population size from global influence

1 Worked examples

Study these first. Each one shows the method for a task used later.

■ Megacities and metacities

A **megacity** has over 10 million people; a **metacity** over 20 million. These are defined by sheer **population size**.

■ World cities

A **world city** is a command centre of the global economy — hosting finance, corporate headquarters, and services that shape world affairs, regardless of raw population.

■ Size vs influence

A city can be huge but not a world city, or influential without being the largest — size and global power are different things.

2 Practice

2.1 Define a megacity.

[2]

2.2 Explain why a world city has global influence. [2]

2.3 City A has 15 million people but little global business; City B has 8 million and hosts major banks and headquarters.

(a) Which is a megacity? [1]

(b) Which is more of a world city? Explain. [1]

3 Exam-style questions

3.1 A city is classified as a megacity based mainly on its [1]

A	B
C	D

A global financial power

B population size (over 10 million)

C site

D relict boundaries

3.2 A world city is best defined by its [1]

A	B
C	D

A raw population

B role as a command centre in the global economy

C distance from the sea

D carrying capacity

3.3 A finance hub of 9 million shapes global markets.

(a) Is it necessarily a megacity? Explain. [1]

(b) State what makes it a world city. [1]
