# Vocabulary Test 词汇测验

AP Physics 1 · Week 1

Topics 1–2 · Kinematics, Force and Translational Dynamics

---

*Sections A and C are marked on exact spelling; Section B accepts any listed Chinese form.*

| Question | Answer                 | Marks |
|----------|------------------------|-------|
| 1        | Kinematics             | 1     |
| 2        | scalar                 | 1     |
| 3        | magnitude              | 1     |
| 4        | distance               | 1     |
| 5        | Displacement           | 1     |
| 6        | Velocity               | 1     |
| 7        | speed                  | 1     |
| 8        | average velocity       | 1     |
| 9        | instantaneous velocity | 1     |
| 10       | deceleration           | 1     |
| 11       | air resistance         | 1     |
| 12       | reference frame        | 1     |
| 13       | relative motion        | 1     |
| 14       | projectile motion      | 1     |
| 15       | trajectory             | 1     |
| 16       | range                  | 1     |
| 17       | 矢量                     | 1     |
| 18       | 加速度                    | 1     |
| 19       | 自由落体                   | 1     |
| 20       | 分量                     | 1     |
| 21       | 系统                     | 1     |
