AP United States History

1. **ongoing work**

   The ideals are being defined, not simply applied.

2. **powers of the federal government; relations with European powers; the tariff**

   The same issue areas that produced the parties in the 1790s.

3. **often trumped**

   A strong verb with a strong qualifier.

4. **market relationships between producers and consumers came to prevail**

   Buying and selling replaced making for one's own use.

5. **Americans moving west of the Appalachians; international migrants to industrialising Northern cities**

   Two movements producing different social results.

6. **the national bank; tariffs; federally funded internal improvements**

   Each is a case of the one question about federal power.

7. **regional cultural sensibilities; European influences; American elements**

   'Combined' – a mixture, not an invention or an import.

8. **upstream of the reform movements**

   It influenced reforms and inspired utopian movements.

9. **largely limited to unsuccessful rebellions by enslaved people**

   Describing constraint, not absence of effort.

10. **mass political parties; suffrage for all adult white men; judicial primacy in interpreting the Constitution**

    Exclusion by race and sex remained.
