You must be able to:

- state what both sides did and what both faced
- name the four reasons for Union success
- state the CED's description of early Confederate performance
- explain why a list of four reasons is the answer

1 Worked examples

Study these first. Each one shows the method for a task used later.

■ Both sides

Both the Union and the Confederacy mobilized their economies and societies to wage the war even while facing considerable home front opposition.

Total mobilisation and internal dissent, on both sides.

■ Four reasons

Improvements in leadership and strategy, key victories, greater resources, and the wartime destruction of the South's infrastructure.

■ Early Confederate performance

Although the Confederacy showed military initiative and daring early in the war, the Union ultimately succeeded. The CED credits the Confederacy's early performance before explaining the outcome.

■ Why four

"Greater resources" alone would predict a quicker victory; "improvements in leadership" alone would not explain the scale. The list is the CED's answer to why an advantage in resources took four years to become a result.
