

A starting allocation over 30 teaching weeks, weighted by each topic's share of past-paper marks — adjust to your own calendar. The last column lists the Library material that already covers the topic.

| Weeks | Topic                                                                         | Subtopics                                                     | Library material                                                             |
|-------|-------------------------------------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------------------------------|
| 1–7   | <b>1. Molecules, Diet, Transport and Health</b>                               | 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8, 1.9, 1.10, 1.11, 1.12 | Handout · Slide deck · 12 exercise sheets · 11 past-paper sheets · Unit test |
| 8–14  | <b>2. Cells, Development, Biodiversity and Conservation</b>                   | 2.1, 2.2, 2.3, 2.4, 2.5, 2.6, 2.7, 2.8                        | Handout · Slide deck · 8 exercise sheets · 8 past-paper sheets · Unit test   |
| 15    | <b>3. Practical Skills in Biology I</b>                                       | 3.1, 3.2, 3.3                                                 | Handout · 5 exercise sheets                                                  |
| 16–22 | <b>4. Energy, Environment, Microbiology and Immunity</b>                      | 4.1, 4.2, 4.3, 4.4, 4.5, 4.6, 4.7, 4.8, 4.9, 4.10             | Handout · Slide deck · 10 exercise sheets · 10 past-paper sheets · Unit test |
| 23–29 | <b>5. Respiration, Internal Environment, Coordination and Gene Technology</b> | 5.1, 5.2, 5.3, 5.4, 5.5, 5.6, 5.7, 5.8, 5.9, 5.10, 5.11, 5.12 | Handout · Slide deck · 12 exercise sheets · 11 past-paper sheets · Unit test |
| 30    | <b>6. Practical Skills in Biology II</b>                                      | 6.1, 6.2, 6.3                                                 | Handout · 4 exercise sheets                                                  |
