

A starting allocation over 30 teaching weeks, weighted by each topic's share of past-paper marks — adjust to your own calendar. The last column lists the Library material that already covers the topic.

Weeks	Topic	Subtopics	Library material
1–7	1. Structure, Bonding and Introduction to Organic Chemistry	1.1, 1.2, 1.3, 1.4, 1.5	Handout · Slide deck · Vocabulary list · 15 exercise sheets · 5 past-paper sheets
8–14	2. Energetics, Group Chemistry, Halogenoalkanes and Alcohols	2.1, 2.2, 2.3, 2.4, 2.5	Handout · Slide deck · Vocabulary list · 18 exercise sheets · 5 past-paper sheets
15	3. Practical Skills in Chemistry I	3.1, 3.2	Handout · Vocabulary list · 4 exercise sheets
16–22	4. Rates, Equilibria and Further Organic Chemistry	4.1, 4.2, 4.3, 4.4, 4.5	Handout · Slide deck · Vocabulary list · 17 exercise sheets · 5 past-paper sheets
23–29	5. Transition Metals and Organic Nitrogen Chemistry	5.1, 5.2, 5.3, 5.4, 5.5	Handout · Slide deck · Vocabulary list · 15 exercise sheets · 5 past-paper sheets
30	6. Practical Skills in Chemistry II	6.1, 6.2	Handout · Vocabulary list · 4 exercise sheets
