

2.1 Verbal: text completion and sentence equivalence

Name: _____ Class: _____ Date: _____

KEY WORDS arduous • equivalence

Objective

Complete one-, two- and three-blank passages using context; Select two sentence-equivalence choices yielding coherent equivalent meanings; Use logical cues rather than vocabulary similarity alone.

Original public tasks and locally authored marking guidance. No official score is assigned.

1 Key knowledge and worked examples

arduous : Requiring much effort.

equivalence : Matching meaning in the completed sentence.

For text completion, predict each blank from the passage. Support for a later blank may appear earlier.

A two- or three-blank item requires all blanks correct; do not treat choices as independent mini-scores.

Sentence equivalence requires two choices that both fit and produce equivalent sentence meanings.

A pair of synonyms can both fail the sentence. Check grammar, tone and logic as well as word meaning.

Although the design looked simple, building it was arduous. Although signals a contrast between appearance and effort. For equivalence, difficult and demanding could both fit this sentence; easy and effortless would reverse the needed contrast.

Follow the stated evidence and response instruction.
