$24 - 4 =$ **20** percentage points; they are official government figures, and the regime used the campaign as propaganda; “literacy” may have been measured with a simple test, so the real level of reading may be lower

any two, explained: the CDRs (1960) watched every street, so opposition was reported and dangerous; control of the media: opposition newspapers were closed, so only the revolution's view was heard; social reforms: land reform, literacy and free health care won the loyalty of the poor; using the US threat: the Bay of Pigs (1961) let Castro present opponents as traitors and rally Cubans; a single party: from 1965 the Communist Party was the only legal party

conclusion: a judgement on whether force or consent mattered more, and how the two states differ
