Award 1 mark for each relevant point [max 2]. Award 1 mark for each relevant explanation [max 2]. Award up to 2 marks for a justified decision as to whether secondary market research is the most appropriate method of market research for a business to use when deciding whether it should expand. Points might include: Secondary market research: • Low cost [k] so more funds to spend in other areas of the business [an] • Quick to obtain [k] so may speed up decision-making [an] • Data may be out of date [k] so may not make appropriate decisions [an] • Wide range of data [k] • Data may not be relevant [k] • Data is available for all businesses [k] Primary market research [k] • More in-depth information [an] • Specific / only available to the business [an] • Up to date [an] • May not have the necessary skills to collect data [an] • Expensive [an] • Takes time to collect [an] Other appropriate responses should be credited.
------	---

1(e)	Justification might include: Secondary market research is cheap [k] so more funds can be invested into other areas of the business [an]. However, the data may be out of date [k] so may make inappropriate decisions [an]. Secondary market research is not the most appropriate method to use because although it is cheap, the wrong decisions about expansion can cost the business even more money in the long run [eval] [eval].

1(e)	Explain <u>two</u> factors a manufacturing business should consider when relocating its operations to another country. Which factor is likely to be the most important? Justify your answer. Award up to 2 marks for identification of relevant points. Award up to 2 marks for relevant development of points. Award up to 2 marks for a justified decision as to which factor is likely to be the most important for a manufacturing business when relocating its operations to another country. Points might include: • Access to raw materials [k] as without materials it can delay/stop production [an] so not able to meet orders [an] • Labour issues e.g. cost/access to suitable/skilled/enough employees [k] as lower wage rates could help lower labour costs [an] increasing its profit margin [an] • Land issues e.g. availability/cost of suitable land [k] which could increase/lower fixed costs [an] • Trade restrictions such as tariffs/quotas [k] as quotas could limit the amount of goods allowed into a country [an] • Availability of government grants / rates of taxation [k] which could reduce the amount of finance needed [an] • Legal controls [k] as this could stop/determine where the business can operate [an] • Infrastructure (accept only once) e.g. access to utilities, communications [k] as without suitable power it would be difficult to operate (efficiently) [an] • Available market/demand for the product/level of competition [k] which may reduce transport costs [an] • Language/cultural problems [k]
------	--

1(e)	Other appropriate responses should be credited. Justification might include: Access to raw materials [k] without materials there may be delays in production [an]. Another factor is employees [k] as a lack of skills could lead to lower quality products [an]. Access to raw materials is the most important because without materials there is nothing to sell, lowering potential revenue [eval]. However, a business could train employees to produce quality products [eval].

Award up to 2 marks for relevant development of points. Award up to 2 marks for a justified decision as to whether the advantages of internal recruitment for a business are greater than the disadvantages. Points might include: Advantages: • Employees know the business [k] so can start <u>work</u> more quickly / less training needed [an] • Low cost/cheaper [k] which reduces cash outflows / as do not have to spend funds on job advertisements [an] • Less time-consuming / quicker [k] which means time can be used for other purposes [an] • Can motivate employees [k] so reducing labour turnover / encourages employee loyalty / improve efficiency [an] • Company knows the employee [k] which reduces risk / likelihood of employing someone who is not appropriate for the job [an] Disadvantages: • Suitable candidates may not be available / employees may not have experience / skills needed [k] which could lead to mistakes / wrong actions taken [an] • Reduces pool / fewer potential candidates [k] • Would create another vacancy for the business to fill [k] • Could create resentment / jealousy among those not selected [k] which could demotivate these employees [an] • Lack of new ideas [k] so business may become less competitive [an]
------	---

4(e)	Other appropriate responses should be credited. Justification might include: Internal recruitment is cheaper [k] which reduces cash outflows [an]. However, the current employees may not have skills needed [k] leading to mistakes being made [an]. The potential disadvantages are greater because those mistakes could damage the businesses reputation [eval] which is likely to cost the business more money in the long term. [eval]

Do you think customers have a more important role in the success of a business than its employees? Justify your answer.

Award up to 2 marks for identification of relevant points.
Award up to 2 marks for relevant development of points.
Award up to 2 marks for a justified decision as to whether customers have a more important role in the success of a business than its employees.

Points might include:

Customers:

- Buy the products [k] and if ignores their needs the business will lose revenue/won't survive [an]
- Can share opinions to help improve products [k] which can help increase market share [an]
- Provide recommendations/word of mouth advertising [k]

Employees:

- Make the products [k] otherwise there is nothing to sell [an]
- Employees can affect quality [k] which could damage/improve its reputation [an]
- Employees provide customer service [k] which is important for brand image [an]
- Without sufficient employees the business may not be able to meet demand [k]
- Workers can be replaced by machines [k]

Other appropriate responses should be credited.

1(e)

Justification might include:

Customers are important, they buy the products [k] which generates revenue [an]. Employees make the goods [k] without them, there is nothing to sell [an]. However, customers are more important as without revenue, the business cannot cover its costs and survive in long term [eval]. A business can use automation reducing the importance of employees [eval].
