

Solutions

Each answer shows the steps, then the **result**.

2.1

- scan for the day the pool closes early
- **Monday**

2.2

- a sixteen-year-old with a student card pays the **child price**
- **\$2.00** — accept "the child price"

2.3

- any **two** requirements
- **book at least three days in advance**
- **attend on Tuesday or Thursday at 7.00 p.m.**

2.4

- the question asks **why**, so the answer must give a reason
- because the pool is used for the **regional competition**

2.5

- lockers are free, but you must bring
- **your own padlock**

3.1 C

- the question asks for a **time**, so only a time can earn the mark
- A and D are true but not specific; B answers a different question

3.2

- the question asked about a **sixteen-year-old** student
- children **under sixteen** pay \$2.00; this student pays the child price because of the **student card**, not age

3.3

- any question whose answer is that number
- e.g. "**How far in advance must a beginners' lesson be booked?**"
