- **他总算来了；他终于来了。** – Both phrases can mark the arrival after the wait, with 总算 foregrounding relief.

■ Build the form

- The pattern in this lesson is **总算 vs 终于 (finally)**. Locate it in the original interlinear examples below.
- Keep the words in their demonstrated positions; the pattern must fit the intended situation as well as the sentence form.

■ Try it with help closed

A friend arrives after a long anxious wait. Close the examples. Say a Mandarin response, then write it in Chinese. Explain briefly in English what the lesson's pattern adds. Compare with the model, then change one detail and try again.

One possible response: 他总算来了；他终于来了。

- My response conveys a message that fits the opening situation.
- I can explain the meaning of the pattern, rather than only naming it.
- 终于 can also occur with relief, or with an unwelcome outcome.
- Avoid treating the two as mutually exclusive labels for emotion.
- I tried a second response with a name, time, place, or description changed.

Practise this pattern step by step.
