TOEFL Junior

1. **Between the two sentences (after ”time”)**

   Pause at the end of a sentence. Pausing inside a phrase like up to four books breaks the meaning.

2. **45 seconds and one minute**

   45 seconds to prepare, then one minute to record.

3. **One minute to prepare, one minute to speak**

   One minute to prepare and one minute to record.

4. **False**

   The descriptors ask for speech a listener understands easily, not a native accent.

5. **One morning, Mei missed the school bus, so she had to walk.**

   It starts a story with a time, a character, a problem and a reason (so).

6. **Every Friday**

   Every Friday. Monday is the sign-up deadline for volunteers.

7. **6**

   The task shows six pictures that tell one story.

8. **1**

   One main stress per word.

9. **False**

   Raters listen for clear pauses, stress and intonation, not speed.

10. **False**

    Retell what the speaker said; new ideas do not answer the task.
